Professional Experience

Sparks foundation Data Science and Business Analytics internship 03/2024 – 05/2024

- Performed exploratory data analysis on the IPL dataset using Python, NumPy, Pandas, Matplotlib and Seaborn.
- Mumbai Indians: the most successful IPL team with 109 wins. Teams winning tosses choose to bat first 60% of the time.
- Virat Kohli leads IPL run scorers with 5434 runs, while L Malinga tops wickets with 170.

Accenture: Data Analytics and Visualization job simulation virtual internship 11/2025 – 12/2025

- Conducted in-depth analysis, identifying the top 5 categories based on popularity metrics.
- Successfully cleaned and modeled data, significantly enhancing forecast accuracy for informed decision-making.

Skills

Python (NumPy, Pandas) | **SQL** (MySQL) | **Statistics** | **MS Excel** | **Data Analysis** | **Visualization Tool** (PowerBI)

Projects

Comprehensive Analysis Of Paying Guest Accomadations

- Conducted web Scrapping on 10 cities using requests and BeautifulSoup from www.magicbricks.com.
- Implemented data cleaning and data manipulation on a dataset of 45000 entries with NumPy and Pandas.
- Executed exploratory data analysis and created insightful visualizations using Matplotlib and Seaborn.
- Identified gender imbalances in PG distribution. Integrated facilities for 91.63% of food-offering PGs and achieved cost efficiency with 8.63% lower prices for PGs charging extra for food.
- Identified a price range of 5000–13000 rs and found an inverse relationship between price and room sharing.

Maven Fuzzy Factory's Data-Driven Journey Using SQL

- Led impactful SQL analysis for Maven Fuzzy Factory's eCommerce data.
- The website conversion rate increased from 3.19% to 4.40%. 75% traffic from desktop, rest from mobile.
- 50 additional monthly orders, a USD 8.51 gain in income per session, and conversion boosts of 3.18% to 4.06 and 0.88%, respectively, were obtained from the /lander-1 and /billing-2 test pages.
- Applied data-driven strategies for significant user engagement and revenue growth.

Credit Card Financial Dashboard Using PowerBI

- Developed an interactive dashboard using transaction and customer data to provide insights.
- Week-over-Week Change: Revenue increased by 28.8%. Significant increase in total transaction amount and count.
- Year-to-Date Overview: Overall revenue reached 57M. The total transaction amount is 46M. Male customers contributed 31M in revenue; females contributed 26M. Blue and silver credit cards contributed 93% of overall transactions.

Education

Masters of Science in Statistics, Dr. D. Y. Patil ACS College, Pune 2025

Bachelors of Science in Statistics, 2022
Pratibha College of Commerce and Computer Studies, Pune

Certifications

Python Programming Certificate
